## SUMMARY

Self-motivated and team-oriented Information Systems graduate from the University of New South Wales pursuing my passion in a front-end-focused development career.

## SKILLS

- HTML5
- CSS3/SASS
- JavaScript
- React
- GitHub
- SQL
- Microsoft Office – Excel
- Figma

## PROJECTS

### Weather and Study Companion

Displays weather of user's location using Fetch API and plays corresponding ambient sounds based on current weather. A further feature includes a Pomodoro-style study timer with additional timer functionalities acting as a productivity companion.

- Developed with: HTML5, CSS3, JavaScript

### MyWatchList

Browse through movies, tv shows and anime extracted from the TMDB and Jikan API. Ability to view additional information such as synopses and trailers. Other functionality includes a page to save desired media item to a "watch later" list.

- Developed with: HTML5, CSS3, JavaScript

## EDUCATION

### **Bachelor of Information Systems (BIS) | UNSW**
